To write everything that I have experienced would be a lot more than 6 A4 pages so suffice to say that, following 8 years of abuse and grief from DWP and their henchmen/contractors, I will NEVER feel safe or secure again. My physical and mental health have suffered enormous detriment over that period and left me having to decide that, the next time DWP find me fit for work I will take my life. I would recommend that you read through the content on facebook pages including Fightback for Justice, 4UP HQ, DPAC and Remember the Dead where there is ample evidence going back many years of the harm the policies have done. the underfunding of the NHS has also damaged the sick and disabled as it is our only support network, which I feel quite sure the policy makers are a ware of. the removal of legal aid has caused further harm. The increase in foodbanks, CAB assistance, homelessness and mental health problems speak for themselves. thank you for taking this up and I hope it is more effective than all previous investigations including the UN ECHR and charity findings which have been ignored by this gov
